Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Italy on August 2, 2002. It is noted, however, that applicant has not filed a certified copy of the Italian application as required by 35 U.S.C. 119(b).

Specification

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

The abstract of the disclosure is objected to because it includes legal phraseology ("said") and reference to the "invention". Correction is required. See MPEP § 608.01(b).

Art Unit: 3636

The disclosure is objected to because of the following informalities: The Brief Description of the Drawings includes reference to "Fig. 3A" and "Fig. 3B", which is inconsistent with the drawings. The drawings provide labels "Fig. 3a" and "Fig. 3b".

Appropriate correction is required.

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "4" has been used to designate both the door and the armrest in Fig. 1. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

The drawings are objected to because the labels "Fig. 3b" and "Fig. 3a" are inconsistent with reference to these figures in the specification. The specification provides these figures as "Fig. 3B" and "Fig. 3A". A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3636

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the seat armrest" in line 2. There is insufficient antecedent basis for this limitation in the claim. Claims 2-5 are indefinite since each depends from an indefinite claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3-5, as best understood with the above cited indefiniteness, are rejected under 35 U.S.C. 102(b) as being anticipated by Lancaster et al (5897089). Note the armrest (10), rigid arm (26, 28, 30, 32, 34, 36), movable arm or finger (24) pivoted (at 44) on the rigid arm, inner shaped part (48), curved shape (see Figure 4), and protection door (50).

Claims 1-5, as best understood with the above cited indefiniteness, are rejected under 35 U.S.C. 102(b) as being anticipated by Misaras et al (5284314). Note the armrest (18), rigid arm (60, 32), movable arm or finger (36) pivoted (at 75) on the rigid

arm, thrusting element (81), inner shaped part (40), curved shape (see Figure 2), and protection door (70).

Conclusion

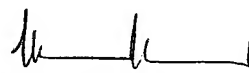

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. A retractable cup-holder assembly is shown by each of Fischer et al (4953771), Spykerman (5330146), Volkmann et al (5791616), and Lancaster et al (5876007).
